

Assessment

BUSINESS IMPROVEMENT

Psychometric Analysis

Psychometric assessments can make a significant difference to a business supporting important development decisions and managing employee's health, wellbeing and performance. It can provide valuable insight into an individual's personality and working style, sources of motivation and performance barriers. It is a useful tool in improving the effectiveness of existing employees and teams.

Thinkahead offers a wide range of psychometric assessment instruments which may be used:

- To assist in the psychological assessment and treatment of individuals suffering from a psychological injury or mental health issue
- To assist in the professional development and transformation of individuals and teams
- To assist organisations identify risk management issues and develop strategic interventions
- To assist in the assessment and transformation of organisational culture
